To whom it may concern:

Beaver Creek School District is currently accepting hourly rate bids for the 25-26 school year for the following:

Occupational Therapy - 24 students averaging 90 minutes per month.

Beaver Creek School District is only looking for in-person services; we are not accepting tele med or virtual services at this time.

Additionally, therapists will need to quote for Medicaid billing, other IEP and MET required paperwork and attendance at IEP/MET meetings and consultation as appropriate.

When looking at possible vendors, cost is a large factor, however in our small rural district we will also be considering proximity to our location and understanding of our small but diverse community.

Please let me know what other information you require to complete your quote.
